

Online Mental Health & Psychology for Schools

It's no secret that student need for mental health has become a crisis. eLuma is committed to helping schools and districts ensure that students get their needs met and programs remain compliant. Our large, national network of certified clinicians can provide immediate support for your students.

SOLUTION

Testing, counseling & intervention can all be performed by clinicians from eLuma's national network of online school psychologists, school counselors & school social workers.

A **Facilitator** is a volunteer, teacher, or paraprofessional who is available to open the virtual classroom for therapy sessions and to act as a liaison between the teachers and therapists as needed.

For a majority of the time the Facilitator works on other things while the students are in their online sessions. Occasionally, the therapist may need the Facilitator to assist the student during therapy.

Getting Started

PC or Mac Computer

Working Webcam

High Speed Internet

Headset with Microphone

Well-lit, Secluded Area

| • CDI | • WJ IV |

The eLuma staff was pleasant and accommodating and willing to meet our needs. Our students enjoyed an online platform and looked forward to going to their speech sessions. I would recommend eLuma to any school district to meet the needs of their students.

– Rhonda Benjamin, Special Education Leader
