

Congratulations Jaiden Lutes!

2022 Yes I Can! Award - Arts

Jaiden is a student with Autism who attends special education classes for his core academics and general education classes for his electives. He's currently enrolled in an art class and attends art club.

Jaiden uses his art talent to cope with how he is feeling; he draws the characters that represent his feelings. Jaiden is very aware of his disability; he says that "He's silly like Mario, sweet like Mickey, and Autistic like Sponge Bob."

He is a young man who works so hard to grow his abilities and does not let anything get in his way. He is an incredibly talented and dedicated student who is willing to continue to push himself and learn new things.

Jaiden is incredibly proud of his drawings and uses them to explain his disability. He also uses his talent to get involved in school activities such as helping the sophomore class paint the windows for spirit week! Jaiden's ultimate goal is to use his artwork in films.
