

SCHOOL HEALTH SERVICES

Comprehensive School Health, Anytime, Anywhere.

 **CONSISTENCY OF CARE**

Don't worry about staff shortages—our qualified program substitutes are available when you need them.

 **CLINICAL OVERSIGHT**

From our medical director to our certified diabetes educators, our clinical experts provide oversight to ensure your school's health services meet the highest standards of care.

 **HEALTH RESOURCE GUIDE**

The gold standard in school health service. This comprehensive tool provides essential care plans, emergency guidelines, and step-by-step resources for your school.

Programs led by State Licensed & Nationally Certified Nursing Team!

 **School Health Clinic Program**

RNs, LPNs, Health Assistants

PSI's school health team is responsible for student injury and illness management, medication administration, health record and chronic health condition management, state required vision/hearing screenings and immunization record reviews, and more.

 **Special Needs Nursing Program**

RNs, LPNs, Health Assistants

Our dedicated health team provides services with a 1:1 student-to-nurse ratio or in clinic settings. We provide personalized care involving families and the education team.

 **Health Screenings Program**

RNs, LPNs, Screening Assistants

We specially train our staff in accordance with state guidelines to carry out mandated vision and hearing screenings and immunization record review and report.
