Save time and money when you make the switch to the WPS® Online Evaluation System™!

WPS
unlocking potential

My Assessments - Choose Assessment to See Details
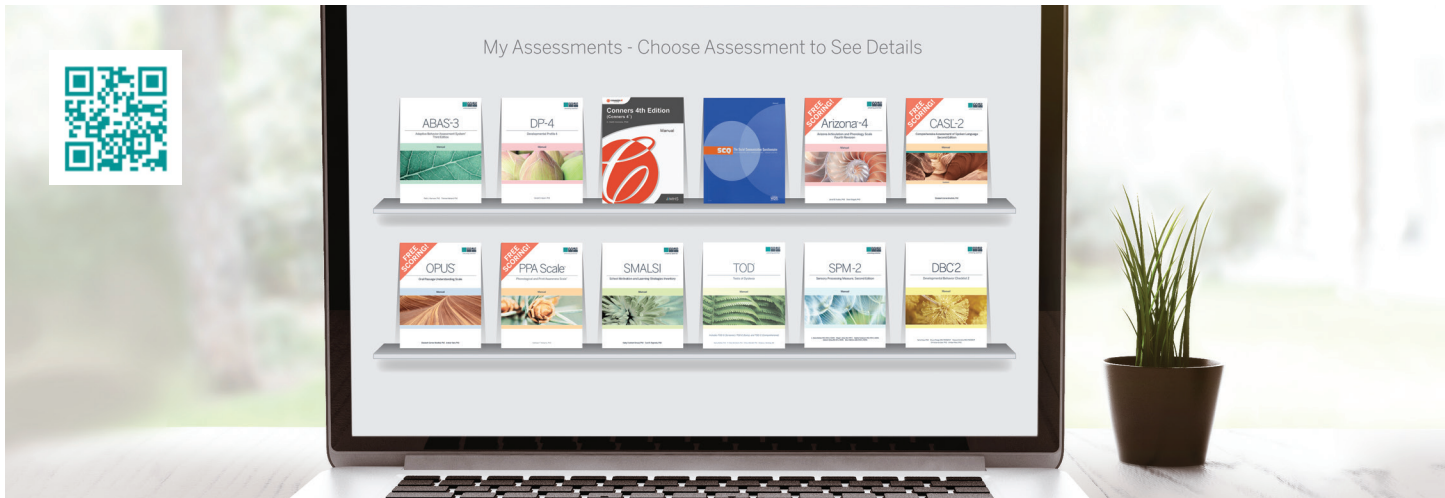

The **WPS Online Evaluation System (OES)** lets you quickly and safely administer and score many of the WPS assessments you know and trust. This online testing platform increases clinical efficiency, and because it's HIPAA/FERPA compliant, you can use it with complete confidence. Use Single Sign-On with Clever for school personnel, students, and families to ensure an easier and more secure environment.

- Administer locally or remotely

- Email online form links directly to raters

- Check the status of an administration at any time

- Consume an online form only when you score it—never lose a print form again

- Easily see how many licenses are left so you never run out

- Score quickly and easily—no need for manual calculations

- View, save, and print reports so you can easily share valuable information with teachers, parents, and others involved in treatment

- Download and print Response Sheets when parents don't have Internet access

- Share online uses and other resources easily with the organization feature
