

Try Kit Instantly with Demo Mode

No setup. No stress.

Just click around and explore Kit's tools with sample data.

Use built-in mock data to test-drive Kit's layout, features, and workflow — all without adding students or losing your trial days.

Graphs + Reports

Visualize progress and generate Medicaid-friendly reports — instantly.

To-Do List

Explore task tracking for planning, documentation, and deadlines.

Instruction + Data

Try out features for planning lessons, taking notes, tracking data, and using calculators.

Calendar

Explore flexible calendar setups — weekly, rotating, A/B, and more.

Caseload Dashboard

Preview how your student list is organized in one easy-to-navigate dashboard.

What People Worry About — and How Demo Mode Solves It

Common Concern	How Demo Mode Helps
"I don't want to waste my 14-day trial."	Demo Mode lets you explore freely. Start your trial only when you're ready.
"I don't have time to learn something new."	Click around in 5–10 minutes to see how intuitive Kit really is.
"I want to make sure this fits my workflow."	Try the features that matter most to your daily routine — no setup required.

When You're Ready

Ready to make it real? Click "Start Free Trial" at the top of your screen to begin with your own students and data — you'll still get 14 full days to try Kit your way.
