

The future of education is interactive.

Empower teachers and engage students with dynamic learning tools

The Pioneers of Interactive Play

EyeWiz is brought to you by EyeClick, the market leader in interactive technology for nearly two decades. Our award-winning systems are found in over 20 thousand locations worldwide, garnering over 20 million interactions each month.

EyeWiz is a dedicated K-12 interactive learning platform designed to boost student engagement and ensure that education is as effective as it is enjoyable. To date, our interactive projectors are used in over 3,000 schools and educational institutions across the U.S. and around the globe, with notable customers such as The Learning Care Group, NASA, YMCA, and Disney.

Let's just say we're changing the game. Literally.

What EyeWiz Brings to Your School

Save hours on class preparation with hundreds of premade educational lessons.

Effortlessly create, edit, and customize lessons in all key subjects.

No student left out! Up to 20 students can participate at a time.

Created in collaboration with child psychologists and educational professionals.

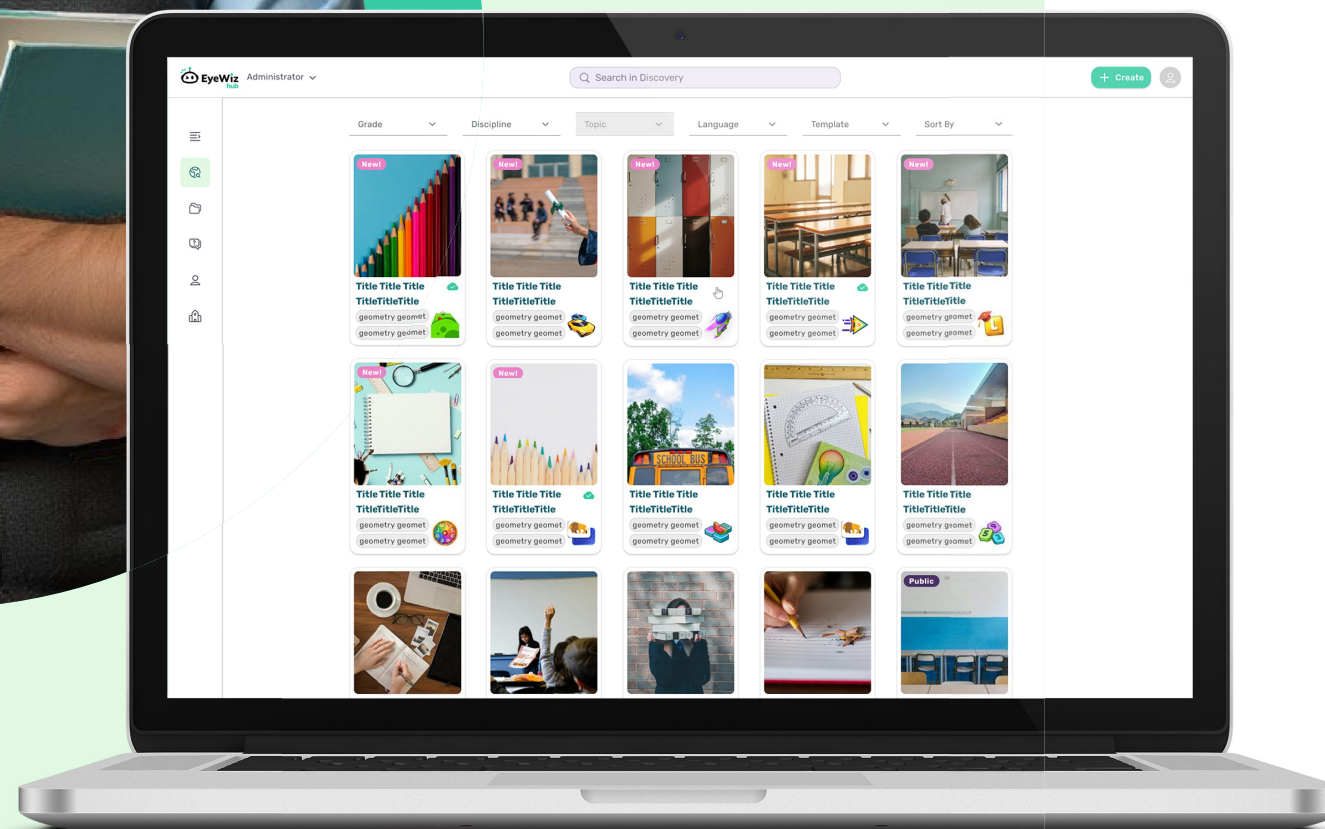

Beyond math and science: Promote child development, including physical activity and social-emotional learning.

Optional built-in AI tools available to help you create content at lightning speed.

EyeWiz is ready for use the day it's installed. Start streamlining interactive education today!

EyeWiz: By Teachers For Teachers

01.

Choose from hundreds of activities, lessons, and templates.

02.

Effortlessly personalize content to align with your educational standards.

03.

Enjoy an elevated classroom experience where students interact directly with your tailored content.

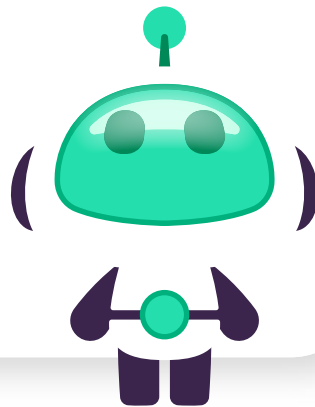

Hear From Your Peers

Return on investment

We have already gotten our money back through the excitement and enthusiasm EyeClick has brought to our students and even faculty!

Thomas Burney
Director of Programs,
Ryal Public School

Tech, physical activity, and academics

Having three devices in our school's auditorium opens a wide array of opportunities to incorporate technology with both fitness and academics.

Dr. Todd Boucher
Principal, Popp's Ferry
Elementary School

Competitive advantage

EyeClick creates a strong visual impression on parents during pre-enrollment tours, helping TLE to stand out from other preschools. EyeClick has been a significant factor in attracting kids to join the school.
