

Staff Training that Strengthens Student Support

Give your team the tools, skills, and confidence to respond to what students are actually experiencing, from mental and behavioral health to IEP compliance and inclusive practice.

eLuma's professional development is expert-led, customized for your district, and virtually delivered. Each session is built around your staff, your students, and the challenges your team is navigating right now.

15+ Years supporting schools

School-based expertise
is embedded in every
session we deliver

500+ Districts served

A track record built on
real outcomes across
diverse communities

100% Customized delivery

Expert-led sessions,
tailored to your
specific needs

Built for the leaders who own student outcomes

eLuma professional development is designed for district and school leaders who need their teams ready to support students and each other:

- **Superintendents** focused on districtwide staff performance and culture
- **Principals** building stronger classroom effectiveness and school climate
- **Special education directors** managing IEP teams, compliance, and inclusive practice
- **Student services administrators** coordinating behavioral and mental health supports

The eLuma training is the best that I have participated in. Our staff are ready to dive into starting this process with our students."

— Kendra G., Director of Student Services

Address Your Most Pressing Challenges

Our customized sessions are built around your staff, your students, and your priorities.

Behavior, SEL & School Climate/Culture

Help staff respond more effectively to student behavior, strengthen classroom practice, and support healthier learning environments.

MTSS/Tiered Support & Universal Screeners

Support teams in identifying student needs earlier, coordinating interventions, and strengthening decision-making across support tiers.

Mental Health, Trauma-Informed Care & Related Supports

Equip educators and student support teams with practical tools to recognize concerns, respond appropriately, and support student well-being.

Special Education & Neurodiversity

Build staff understanding and strengthen inclusive practices that help schools better support diverse learners across settings.

Social Media, Staff Wellness & More

Offer training that supports educator well-being, strengthens communication, and helps teams navigate emerging student and family needs.

All sessions include:

- ✓ Content tailored to your staff's current skill level
- ✓ Practical tools your team can apply immediately
- ✓ Facilitation by experienced school-based practitioners
- ✓ Flexible virtual scheduling that fits your calendar
- ✓ Options for whole-staff, team, or leadership cohorts

What your district can expect

- Fewer classroom disruptions and stronger teaching effectiveness
- Greater staff confidence and a shared support language
- Stronger IEP team capacity and compliance readiness
- Improved parent-school relationships and communication
- Better student outcomes tied to consistent, skilled intervention
- More effective use of existing resources and support structures

Ready to build your district's PD plan?

Connect with eLuma to customize a professional development plan for your school or district. We'll match sessions to your team's needs and schedule.
